

Thank you for watching and sharing the geocentric video found at <https://filedn.com/lddb4jm5INP5uvSI6Gyl7Pf/gv.mp4>

NOTE WELL: If you are going to watch the above video on a cell phone, I think you will need to be connected to Wi-Fi. At least my cell phone continued to start and stop the video before I connected to Wi-Fi.

Also, you will probably want to click on the four arrows in the lower right side of the screen to view the video in FULL Screen.

†††JMJ†††

Below are the 10 Statements you must prove are **all true at all times**; and that all of the 10 Statements outlined are happening at the **same** time.

Although the Sacred Scriptures and the Fathers of the Church are the chief reasons to believe in the geocentric truth, it can also be proved just by logic, math, geometry, and common sense. I agree to pay \$10,000 (Ten Thousand Dollars) to the first person who can actually prove that the earth spins on its axis every 24 hours and orbits the sun at a **constant** speed in an **elliptical** orbit in about 365 ¼ days. Among other things explained in this presentation, to receive the reward, you must prove that the following ten mere statements of the already condemned, heliocentric/anti-Catholic theory are **all true at all times**; and this obviously includes that all of the 10 Statements outlined are happening at the **same** time.

The 10 Statements

- 1) The earth is a planet which spins (turns) counterclockwise on its axis 360° once every 86,400 seconds; which we also speak of as 1,440 minutes or 24 hours or one day.
- 2) The earth is a ball shaped globe and sphere tilted on its axis at 23.4° – in order to get the Four Seasons.
- 3) The earth is traveling at a **constant** speed of approximately **66,600** (or as some webpages used to say 67,000) mph in its orbit path around the sun; or approximately 1,600,000 miles in 24 hours. (This would be approximately 48,000,000 miles that the earth travels in 30 days)
- 4) The earth travels in an almost perfect **elliptical** circle counterclockwise orbit path around the sun about every 365 ¼ days.
- 5) The earth always remains approximately 93 million miles from the sun.
- 6) The sun is approximately 864,000 miles in diameter; and therefore about 109 times larger than the Earth.
- 7) The sun travels in an almost perfect **elliptical** circle counterclockwise orbit path around the Milky Way galaxy at a **constant** speed of approximately **500,000** miles an hour. (500,000 mph x 24 hours = approximately 12,000,000 miles per day and 360,000,000 miles that the sun travels in 30 days.)
- 8) The moon always remains between 238,000 and 240,000 miles from the earth.

9) The moon orbits the earth one time in approximately 29 ½ days traveling at a constant speed going counterclockwise in an almost perfect **elliptical** circle orbit path.

10) The moon orbits the earth at an average constant speed of about **2,300** mph. (24 hours a day times 30 days equals 720 hours. $720 \times 2,300$ mph = approximately 1,656,000 miles that the moon travels in 30 days.)

St. Thomas Aquinas tells us in Q. 94 of the Supplement of the *Summa* under the first article: “I answer that, now everything is known the more for being compared with its contrary, because when contraries are placed beside one another they become more conspicuous.”

†††JMJ†††

Questions you must answer and things you must do, to receive the reward money.

† In addition to the things mentioned during the video that you must do to receive the reward money; you must also send me your answers to all of the questions between these kinds of brackets { } in this document, and if you answer no to any of the questions you must explain why.

† You must prove to me and convince me that all of the 10 things listed in the *10 Statements* document are **all true at all times**, and are all happening at the same time; without teaching anything contrary to reason or against any Known Truth, and without contradicting yourself.

{1} Do you agree that the heliocentric hypothesis states that the earth spins exactly 360° in 86,400 seconds?

{2} Do you agree that if the earth spins 360° in 86,400 seconds, then 12 o'clock midnight and 12 o'clock noon are 12 hours out of phase from June 21st to December 21st?

† Therefore, you must explain and convince me how they get the Four Seasons in the heliocentric hypothesis and still have noon and midnight lined up correctly with the sun at every hour of the year.

{3} Do you agree that it is against reason to believe any person can walk at a constant speed of 2.3 mph for 30 hours starting in Jacksonville Florida, and nevertheless make an elliptical orbit around a truck going at a constant speed of 67 mph, and always remain 240 feet from the truck – although at the end of the 30 hours, the truck will end up more than 2,000 miles from the person walking?

{4} Do you agree that it is against reason to believe the moon travels at a constant speed of about 2,300 mph and nevertheless, remains 240,000 miles from the earth while in about 30 days it makes an elliptical orbit around the earth speeding along at 67,000 mph – although the earth will end up about 46,344,000 miles from the moon?

† You must clearly explain and prove to me how it is possible for the moon to travel at a constant speed of 2,300 mph and still make at least 12 elliptical orbits each year around the earth that is traveling at 67,000 mph.

{5} Do you agree that it is impossible for the earth to make an elliptical orbit around the sun and nevertheless, remain more or less a fixed distance of about 93,000,000 miles from the sun if the earth is traveling at a constant speed of 67,000 mph while the sun is traveling at 500,000 mph?

500,000 mph x 24 hours = 12,000,000 miles the sun travels each day. 12,000,000 x 365 days per year = **4,380,000,000** that the sun would travel each year.

67,000 mph x 24 hours = 1,608,000 miles per day. 1,608,000 x 365 days a year = **586,920,000** miles that the earth would travel each year.

4,380,000,000 minus 586,920,000 = **3,793,080,000**

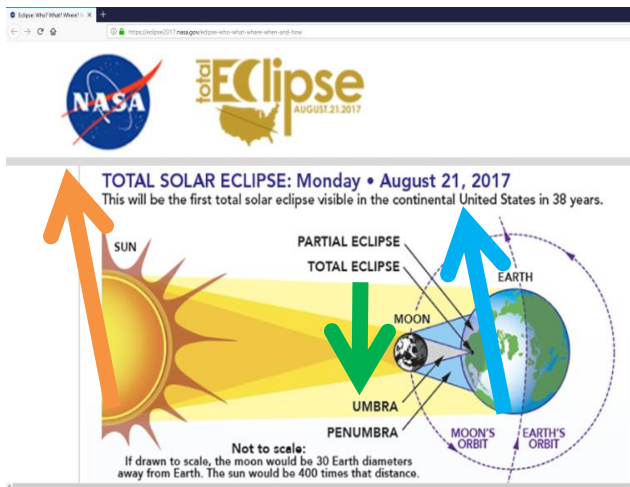

† Therefore, to receive my reward money you must prove that 3,793,080,000 miles is the exact same distance as 93,000,000 miles!

{6} Do you agree that St. Thomas stated the truth in Pt. II-II, Q. 168 Art. 4 of the *Summa* when he wrote: “*I answer that, in human affairs whatever is against reason is a sin*”?

{7} Do you agree that it is against reason to believe 3,793,080,000 miles is the exact same distance as 93,000,000 miles?

{8} Do you agree that therefore it is sinful, because it is against reason, to believe the earth is orbiting the sun according to the many contradictory statements of the heliocentric hypothesis?

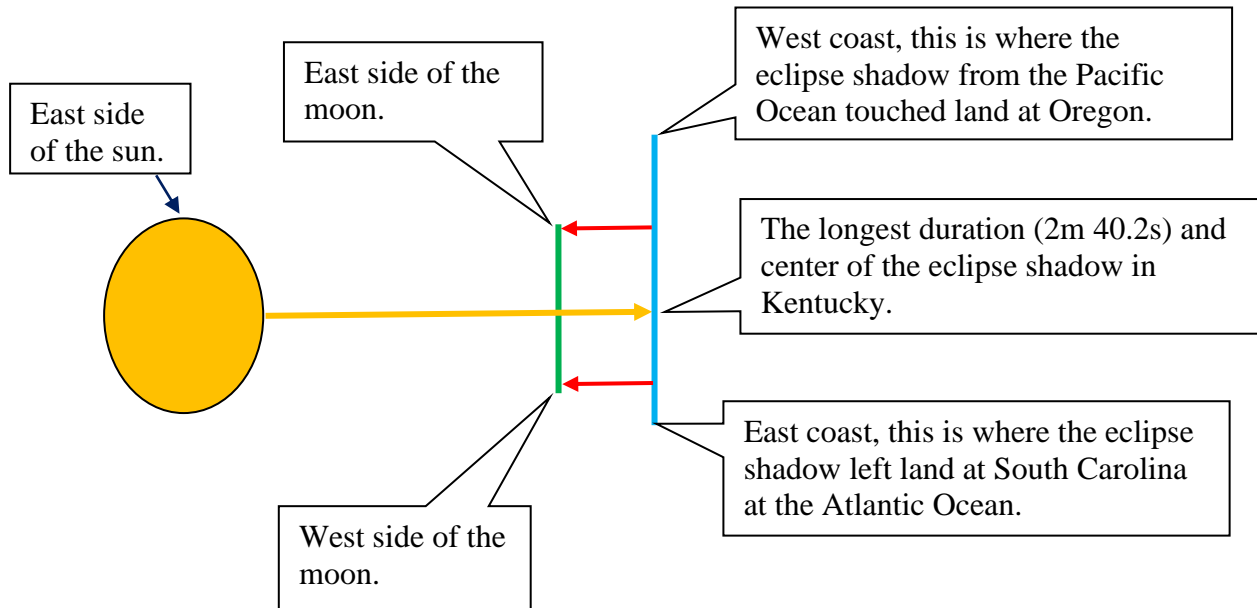

† You must clearly explain and prove to me how it is possible for the earth to be going in the opposite direction of the moon for nearly 15 days of the month; and yet to remain the same distance apart at all times.

† You must clearly explain, and convince me that the drawings and explanations of NASA, Wikipedia, and other websites promoting the heliocentric hypothesis are correct in having the moon going 2,300 miles per hour clockwise around the sun while at the same time the earth was going 66,600 mph counterclockwise around the sun during the total solar eclipse on August 21, 2017; and yet the eclipse shadow took 1 ½ hours to go from the Pacific Ocean to the Atlantic Ocean – when the total travel time of the eclipse shadow from the Pacific Ocean to the Atlantic Ocean would have been less than 2.7 minutes.

† You must demonstrate it, and prove to me that you can have a laser beam coming from a spinning Earth cross the moon from East to West (because the moon rises in the East and sets in the West); while at the same time the laser beam from the moon crosses the earth from West to

East (as the heliocentric model must have the moon going during the total solar eclipse to get the shadow to travel from West to East).

Two **Known Truths** that everyone must accept:

- 1- The moon is ALWAYS first seen in the East, and at all times is seen to circle the earth from East to West until it disappears in the West.
- 2 - During the solar eclipse on August 21, 2017, the moon was first seen on the East Coast and then it was **later** seen on the West Coast as it moved across the United States – although the eclipse shadow was first seen on the West Coast and moved toward the East Coast.

{9} Do you agree that it follows that the direction of the solar eclipse shadow proves the earth must be the center of the universe; with the earth being stationary and the sun and the moon moving over the surface of the earth from East to West?

{10} Do you agree that one of the universal truths by which Almighty God governs the world, and by which mankind communicate, is the fact that nothing can be flat, level, and straight; while at the same time it is curved, rounded, and circular?

{11} Do you agree that the horizon could not be PARALLEL to **level** ground, if the horizon itself is a CURVED round ball/globe?

{12} Do you agree that, using the definitions by which God governs the world, and by which mankind communicates, all places at sea level must be PARALLEL to all other parts at sea level – and not curved, rounded, and circular?

{13} Do you agree that by definition, because the oceans are at sea level; no part of the sea (ocean) is curved, rounded, and circular or higher than the other because it is FLAT and EVEN; in the same plane or line, and PARALLEL to all the places at sea level?

{14} Do you agree that water always seeks its own level, and that is why we use the terminology that the oceans are at sea LEVEL?

{15} Do you agree that the three red lines (at the edge of the globe shown in the video) are not parallel to **level** ground?

{16} Do you agree that the three red lines (at the edge of the globe shown in the video) are not parallel to one another nor parallel to the horizon?

{17} Do you agree that the three red lines (at the edge of the globe shown in the video) are not in a plane parallel to the plane of the horizon?

{18} Do you agree that the three red lines (at the edge of the globe shown in the video) are not all level and parallel at a **flat** and even surface?

{19} Do you agree that therefore, according to the *definitions* and laws by which Almighty God governs the world and by which mankind communicate, we cannot be living on a globe; and have all of the oceans at sea level and parallel?

† You must show how it is possible, explain, and convince me of these three things.

1 - That if the earth is a **globe** in the center of the universe; on June 21 you can have the entire Arctic Circle lit up by the sun although the sun never goes above the Tropic of Cancer.

2 - That if the earth is a **globe** in the center of the universe; a 6-foot-long level will actually cast a 6-foot-long shadow at the Tropic of Cancer on December 21 – while at the same time the sun never goes above the Tropic of Cancer nor below the Tropic of Capricorn.

3 - That if the earth is a **globe** in the center of the universe; explain and demonstrate why we do not have a total lunar eclipse that would last for more than one day every month of the year.

{20} Do you agree that if they cannot get the Four Seasons of the year in the heliocentric hypothesis without the earth being tilted on its imaginary axis at about 23.4°; then neither can you get the Four Seasons of the year, nor have the *entire* Arctic Circle completely lit up on June 21st with the earth being a **globe** in the center of the universe if the sun never goes north of the Tropic of Cancer?

{21} Do you agree that the Catholic Church did condemn heliocentrism as a **heresy** repugnant to Sacred Scripture when She made Galileo abjure his statement, “*that the sun is the centre of the world, and immovable, and that the earth is not the centre, and moves*”?

{22} Do you agree that Pope Alexander VII did officially and infallibly condemn heliocentrism as a **heresy**?

{23} Do you agree that Pope Leo XIII did teach infallibly the Catholic doctrine that whenever all of the **Holy Fathers** are unanimous in their teaching concerning any text of the Bible, that such interpretation has come down from the Apostles as a **matter of Catholic faith**?

{24} Do you agree that St. Robert Bellarmine wrote the truth when he taught the unanimous agreement of the Fathers is that: “THE SUN is in the heavens and MOVES SWIFTLY AROUND THE EARTH, and that the earth is far from the heavens and stands **immobile** in the center of the universe”?

{25} Do you agree that therefore, it is a **matter of Catholic faith** that: “THE SUN is in the heavens and MOVES SWIFTLY AROUND THE EARTH, and that the earth is far from the heavens and stands **immobile** in the center of the universe”?

† You must send me your answers to the questions between these kinds of brackets { } from the article found at: <https://jmjsite.com/ec.pdf>; without teaching anything contrary to reason or against any Known Truth.

{26} Do you agree that Jesus Christ did institute and establish an infallible Church; and that that infallible Church did condemn heliocentrism as a heresy? Because the heliocentric heresy has a lot to do with the infallibility of the Church Jesus Christ founded, you must send me your answers to the 314 questions asked in the article found at this hyperlink: <https://jmjsite.com/i.pdf> without teaching anything contrary to Sacred Scripture; or contrary to common sense; and without rejecting any Known Truth.

† Because nearly all of the members of the Novus Ordo sect and the Traditionalist Movement sects believe the heliocentric hypothesis is the truth, you must also send me your answers to all of the questions between these kinds of brackets { } in each of the articles found at these three hyperlinks:

https://www.jmjsite.com/my_petition_for_spiritual_help.pdf

<https://jmjsite.com/cr.pdf>

<https://jmjsite.com/ab.pdf>

Thank you. May Almighty God, through the intercession of the Blessed Virgin Mary, grant you every grace you need to seek the truth, find the true, know the truth, understand the truth, accept the truth, live according to the truth, love the truth, and never again reject or impugn any known truth. I pray that you will be in, remain in, live in, and die in the true Church that Jesus Christ founded – in the state of sanctifying grace having obtained that degree of holiness it is God’s holy will you obtain.

Patrick Henry
