WARNING: Ma Hillbilly read in the paper that nine out of ten accidents happen within 30 miles of home.

HILLBILLY SOLUTION: Ma and Pa Hillbilly moved 31 miles to a new location. Consequently, they believe they have a 90% less chance of getting in an accident.

WAY TO GO, PA: Ma Hillbilly wanted me to tell you that you can still send them letters. Pa took time to take those four address numbers from their old house, where they lived for 60 years and put them on the new home. That way, they will still have the same address, and the mail will come to them.

A guy was hitchhiking on the side of the road on a very dark night and in the middle of a storm. The night was rolling on, and no car went by. The storm was so strong he could hardly see a few feet ahead.

Suddenly, he saw a car coming slowly toward him and stopped.

Without thinking about it, the guy got into the back seat, closed the door, and realized nobody was behind the wheel! The car starts slowly; the guy looks at the road and sees a curve coming his way. Scared, he starts to pray, begging for his life.

He has not come out of shock when, just before he hits the curve, a hand appears through the window and moves the wheel. The guy, paralyzed in terror, watched how the hand appears every time right before a curve.

Gathering his strength, the guy jumps out of the car and runs to the nearest town. Wet and in shock, he goes to a restaurant and tells everybody about his horrible experience.

A silence enveloped everybody when they realized the guy was serious.

About half an hour later, two guys walked into the same restaurant. They looked around for a table when one said to the other, "Look, John, that is the dummy who got in the car when we were pushing it."

I found the meaning of life. It's on page 937 in the dictionary between the words lie and lifeboat.
